

# Pool Filtration

## 15- DEEP BED FIBERGLASS FILTERS "ROME"

- ROME series deep bed filters provide approximately 40% more filter bed depth compared to regular media filters. With extra bed depth, Rome series offer superior depth filtration.
- Full laminated fiberglass tank with gel coat smooth finish.
- UV resistant surface to work under high temperature and sun.
- Stainless steel pressure gauge
- Materials are dependable and suitable for all weathers.
- Hassle free unloading media through the special designed drainage system.
- Six way multiport valve included.
